Tabriz Latifov
Full Stack Software Developer

I consider myself a responsible, hardworking, and creative software engineer. My algorithmic thinking and problem-solving skills are strong, and I believe these are essential in this field. My goal is not just to be someone who can write code but to become a well-rounded **engineer**.

EDUCATION

100% Scholarship Program (Advanced Back-end Development (C#, .NET and Microservice Architecture))
Uniser IT Academy
12/2018 - 04/2019   *Azerbaijan, Baku*

Full Stack Development (C#, .NET)
Software Village
06/2018 - 12/2018   *Azerbaijan, Baku*

Computer Engineering (EN)
Baku Engineering University
09/2016 - 05/2020   *Azerbaijan, Baku*

CERTIFICATES

Application of Blockchain technology in the Medical field (05/2025 - Present)
- **SCOPUS Journal (In progress)**

The role of Software Architectures in Space Systems
- **Article (it will publish in Sydney, Australia) - IAC Astronautical Federation Conference 2025 (29 September - 3 October)**

Will Artificial Intelligence replace humans? (07/2024)
- **ARTICLE (Published in London, UK) - British Congress**

Algorithms, Sorting and Searching, Divide and Conquer
- **Coursera (By Stanford University)**

Object Oriented Development with C#
- **Cousera (By Jordan University of Science and Technology)**

Computer Science
- **EDX (By Massachusetts Institute of Technology)**

Advanced Front-end Development Certificate (06/2019 - 09/2019)
- **By MyMentorship and Development Agency**

JavaScript Certificate
- **By CISCO Networking Academy**

Climate Change Hackhathon COP29 - II place (09/2024)
- **By Azerbaijan Republic Youth Fond**

SKILLS

C# | .NET | ASP.Net (Core) MVC | .Net Core | EFCore | OOP | SOLID | CI/CD | Jenkins | Docker | Kubernetes | Pipelines | RabbitMQ/KAFKA | AWS | Azure Services | VMWare(Ubuntu) | NGINX | Pipelines | Linux OS | Redis | MS SQL | MySQL | PostgreSQL | ORACLE | NoSQL | HTML | CSS | Bootstrap | Tailwind CSS | React.js | jQuery | TS | JS (ES6+) | Git | GitHub | Gitlab | Design Patterns | Web API | Microservice | Modular Architectures

WORK EXPERIENCE (5+ YEARS)

Full Stack Software Enginner (C#, .NET, Microservices, React.js, JS, TS) (07/2025 - Present)
Upwork (Remote projects)

Full Stack Software Team Lead (C#, .NET, Docker, Kubernetes, React.js, JS) (12/2024 - 06/2025)
DendClub (Hybrid), Azerbaijan

Back-end Instructor (C#, .NET) (08/2024 - Present)
Software Village and CodeWorld.az (Online)

Middle ICT On-site Technical Support Engineer (COP29 Baku, Azerbaijan) (09/2024 - 12/2024)
KRONOS ICT TEAM, Australia team (Full-time)

Full Stack Software Developer (12/2019 - 12/2024)
TIC (Remote), USA
